

My understanding of the Broadcast Ownership change is that should someone be fortunate enough and worked hard enough to acquire several radio stations in the same area and then wishes to no longer be engaged in the broadcast business they will not be allowed to sell their company to a white male -- that it must be sold to a minority male or female of any race.

If this is correct, it is COMMUNISM. It is telling people what they can and cannot do with personal, private property which they have acquired through their hard work. What will be next on the list that the government controls relative to the individual. A person should be able to sell their property, whether it be a business or a home, to whomever they wish.
